Connecting Technology

Connection Principle 2N

For the 2N pipe connector, the pipe is placed against the inner edge of the connector and a sealing ring seals off the connection. A cutting ring fixes the connection in place. This creates a friction-locked and tight pipe connection that can be released at any time. This eliminates dead volume in the design concept and has no effect on the flow.

Available in PP, PVDF & PFA

	2N100B Plug connector with pipe connection Series 2N		2N100FG Straight connector for pipe (Series 2N) with female G-thread		2N100FM Straight connector with connection for pipe (Series 2N) and female M-thread
	2N100FN Straight connector with connection for pipe (Series 2N) and female NPT-thread		2N100FU Straight connector with connection for pipe (Series 2N) and female UNF-thread		2N100MG Straight connector with connection for pipe (Series 2N) and male G-thread
	2N100MM Straight connector with connection for pipe (Series 2N) and male M-thread		2N100MN Straight connector with connection for pipe (Series 2N) and male NPT-thread		2N100MU Straight connector with connection for pipe (Series 2N) and male UNF-thread
	2N100P Straight union with connection for pipe (Series 2N)		2N101FG Straight bulkhead connector with connection for pipe (Series 2N) and female G-thread		2N101FN Straight bulkhead connector with connection for pipe (Series 2N) and female NPT-thread
	2N101MG Straight bulkhead connector with connection for pipe (Series 2N) and male G-thread		2N101MN Straight bulkhead connector with connection for pipe (Series 2N) and male NPT-thread		2N101P Straight bulkhead union with connections for pipe (Series 2N)
	2N110FG Straight pressure gauge connector with connection for pipe (Series 2N) and female G-thread		2N200FG Elbow connector with connection for pipe (Series 2N) and female G-thread		2N200FM Elbow connector with connection for pipe (Series 2N) and female M-thread

	<p>2N200FN</p> <p>Elbow connector with connection for pipe (Series 2N) and female NPT-thread</p>		<p>2N200MG</p> <p>Elbow connector with connection for pipe (Series 2N) and male G-thread</p>		<p>2N200MM</p> <p>Elbow connector with connection for pipe (Series 2N) and male M-thread</p>
	<p>2N200MN</p> <p>Elbow connector with connection for pipe (Series 2N) and male NPT-thread</p>		<p>2N200MU</p> <p>Elbow connector with connection for pipe (Series 2N) and male UNF-thread</p>		<p>2N200P</p> <p>Elbow union with connections for pipe (Series 2N)</p>
	<p>2N201P</p> <p>Elbow bulkhead union with connections for pipe (Series 2N)</p>		<p>2N300FG</p> <p>T-connector with connections for pipe (Series 2N) and female G-thread</p>		<p>2N300FN</p> <p>T-connector with connections for pipe (Series 2N) and female NPT-thread</p>
	<p>2N300MG</p> <p>T-connector with connections for pipe (Series 2N) and male G-thread</p>		<p>2N300MN</p> <p>T-connector with connections for pipe (Series 2N) and male NPT-thread</p>		<p>2N300P</p> <p>T-union with connections for pipe (Series 2N)</p>
	<p>2N310MG</p> <p>T-connector with connections for pipe (Series 2N) and male G-thread, asymme...</p>		<p>2N310MN</p> <p>T-connector with connections for pipe (Series 2N) and male NPT-thread, asym...</p>		<p>2N400P</p> <p>Cross union with connections for pipe (Series 2N)</p>
	<p>2N500MG</p> <p>Fork connector with connections for pipe (Series 2N) and male G-thread</p>		<p>2N500MN</p> <p>Fork connector with connections for pipe (Series 2N) and male NPT-thread</p>		<p>2N500P</p> <p>Fork union with connections for pipe (Series 2N)</p>
